

Translation Services

“As the former Project Lead for an international program for about 18 months, I had the wonderful opportunity to work with A2Z Global. For the entire program, A2Z Global provided technically excellent product and quality service.

A2Z Global provided high quality narrations in English and Japanese for dual language computer base training (CBT) courseware. The effort required accurate translation of complicated technical and military terminology. The narrations were of long durations, plus multiple topics at the same time requiring quick turnaround times. A2Z Global consistently delivered accurate, high quality audio, on time and within budget.

It should be noted that the Program’s Japanese Subject Matter Expert (SME) and our customer held A2Z Global to very high standards and were very satisfied with the final products. In addition, A2Z Global representatives were easy to work with and addressed any questions quickly. They would go the extra mile needed to help me make my deadlines.”

- Lockheed Martin

“I wanted to say thank you for your flexibility and quick turnaround with our latest translation product. This allowed us to get translated documents to the appropriate approval agencies well ahead of schedule.”

- Honeywell Scanning & Mobility

“Glad to hear and thanks for the extra effort to support our timeline.”

- Lockheed Martin

“The translation was great and has worked out very well for us. Kudos to you and your team!”

-, Kapco Aero

“We have looked through the document and it’s very well done. Thanks for the efforts of you and your team. I appreciate your help.”

- Lockheed Martin

“I am bound to say the quality of A2Z’s work and the customer service they provide is of the absolute highest standard and they have often gone the 'extra mile' for us - and as such they demonstrated a 'partnership approach' to their work with us and do not just treat us as yet another client to invoice. I am therefore more than happy to make introductions on their behalf, and to recommend their services to others.”

- Reuters Health

"I am writing to recommend A2Z Global as an excellent choice (if not the best choice) as a partner in the internationalization and localization of your products. Their technical expertise and extremely talented pool of translators, editors, and engineers helped us deliver a major release of software in English and Japanese at the same time and on schedule.

The estimates we received from A2Z were thorough and well-explained. Any questions we had were answered directly by Theodora Landgren. Communications with A2Z have always been fast and quick. They listened carefully to what we asked for and abided by any rules we set down. They responded quickly to any questions we had. "

-, Axeda Systems

"Please extend our sincere thanks to the A2Z team for their outstanding work recently completed on the Chinese translation project. Their relentless efforts have delivered the project ahead of schedule and allowed UPS LT to meet an aggressive roll out schedule for our applications in China.

Thanks again for a job well done and I look forward to working with you and your team again in the near future."

- UPS Logistics Technologies

"The employees at A2Z Global are knowledgeable in the translation/localization field and are consummate professionals. Working with their management, project management and engineering department is a pleasure.

A2Z's work is reasonably priced and of good quality. Their network of colleagues in the industry is impressive. The staff is always willing to work with clients to find creative ways to meet tight schedules. Their dedication and attention to detail helped us launch our new product on time.

I highly recommend A2Z Global LLC as a translation/localization provider and as a vendor that is easy to deal with and provides good value for corporate dollars."

- Drager Medical (Neonatal Care & Thermoregulation)

"Let me say first, that our local Chinese Office leader said this was "one of the best translations he has seen." Please forward this message to your translator, because this is quite a compliment—and well deserved."

- GE Power & Water Process Technologies
